

Baltimore has a history that can be traced back to prehistoric times. Pirates, smugglers and sea battles all had a share in the story. In 1631 much of the population was carried off by pirates never to be seen again in an event known as the sack of Baltimore. The village recovered fully and today the labyrinth of creeks and islands once haunt of pirates is now a playground of seafarers of a more peaceful kind. The community has waymarked a number of trails around Baltimore to help you explore this area.
